

Term 1, 2018

Weeks 1 and 2 (30 January – 12 February)

Year 5 – 6

Reading

Read several articles together on the same issue to get more than one opinion.
Discuss the different views expressed.

Viewing

View a movie based on a book and make comparisons.
How were they the same? How were they different?

Mathematics

Select five products from the catalogue then calculate what the cost be if there was a 50% sale. Does it make a difference if you add up the items, and then deduct 50%, or if each item is reduced by 50% then totalled?

Find a shopping catalogue. What is the best value sale item in the catalogue? Can you explain your reasoning?
