

Year 3 – Year 4 Homework

Westgarth Primary School
Safe, Fair & Friendly

Term 1, Week 9-10

Reading – Non-Fiction Texts

Support your child to select and read some news articles. These may be from the newspaper or online. Encourage them to consider their opinion and how they feel about the topics. Support them to identify key words and say aloud a summary of each article.

Alternatively, you could watch Behind the News together by visiting <https://www.abc.net.au/btn/> which will discuss current events in the world in language that children can understand.

Writing – Write a Script

Encourage your child to compose a short script for a play. You may want to be a character in the play yourself to make it more engaging for them. Puppets or plush toys could even be used as characters for the show. Perform the play for your family and friends.

Mathematics – Data and Graphs

Check the seven-day forecast for the weather at the beginning of the week. Each day, record the actual temperature. Make some comparisons between the two sets of data and graph the results. Was the forecast accurate? What were the similarities and differences?

You may wish to extend your child's understanding even further by incorporating technology when graphing the results via Microsoft Excel on PC or using the Numbers application for Mac/iOS devices.
