steps

With this cold Melbourne weather, what is better than a warm mug of hot chocolate? For this task, write the instructions/procedure of how to make a hot chocolate for someone that has not done this before. You can use the template on the left or alternatively create your own!

Mathematics – Multiplication

Complete the following multiplication problems. It is recommended to write the problems out vertically and use renaming processes (with place value) as taught in class. If you need some revision for this, visit the tutorial on YouTube: <https://www.youtube.com/watch?v=ujOskOnba1o>

$19 \times 5 = \square$

$23 \times 6 = \square$

$37 \times 9 = \square$

$88 \times 4 = \square$

$79 \times 7 = \square$

$91 \times 6 = \square$

$28 \times 9 = \square$

$75 \times 7 = \square$

$48 \times 5 = \square$

$57 \times 4 = \square$

$85 \times 7 = \square$

$40 \times 8 = \square$

$72 \times 8 = \square$

$43 \times 5 = \square$
