

Writing – Make a comic!

Comics and graphic novels are more popular than ever! Plan and design your very own story and present it as a comic. If you are having trouble getting started, use the template below!

TITLE:

Add your own drawings to complete the comic.

Mathematics – Mathletics

Your child's classroom teacher has given them a username and password to login to Mathletics. This is a fantastic resource that our school is providing for free.

For this week's task, provide your child with a device and time to explore the platform and experiment with the challenges and games available.

To login to Mathletics on a computer, visit <https://login.mathletics.com> Alternatively, a free application is available on both the Apple and Google Play app stores for mobile devices. Simply search 'Mathletics Students' to access and download this version.
