MY RATING

The plot of the book:

'120 or Bust'

Focus – counting, addition, subtraction and multiplication strategies.

What you need:

1 – 120 chart (overleaf), two counters, 1 deck of cards (Jokers still in).

Number of players: 2 – 3

How to play:

Place the deck of cards face-down above your hundred chart between the players. The first player overturns the top two cards and places one on each side of the deck face-up. The player then decides whether to add, subtract or multiply these numbers and moves the counter to the answer. The goal is to get to 120 or as close to as you can without going over (bust). If you go past 120, you automatically lose the game. If you are at what you believe to be a high enough number to win, you may "sit" on that number, however you may not have any further rolls in the game. Keep in mind that some numbers on the chart are 'hot spots', which means it is easy to get to 120 from there.

Card values: Picture cards – 10, aces – 1, Jokers – wild (player chooses any value)

How to win:

Get a higher number than your opponent without going 'bust'!
